

## Project Design Phase-II Data Flow Diagram & User Stories

Date	14 October 2022
Team ID	PNT2022TMID08171
Project Name	Project - Real-Time River Water Quality Monitoring and Control system
Maximum Marks	4 Marks

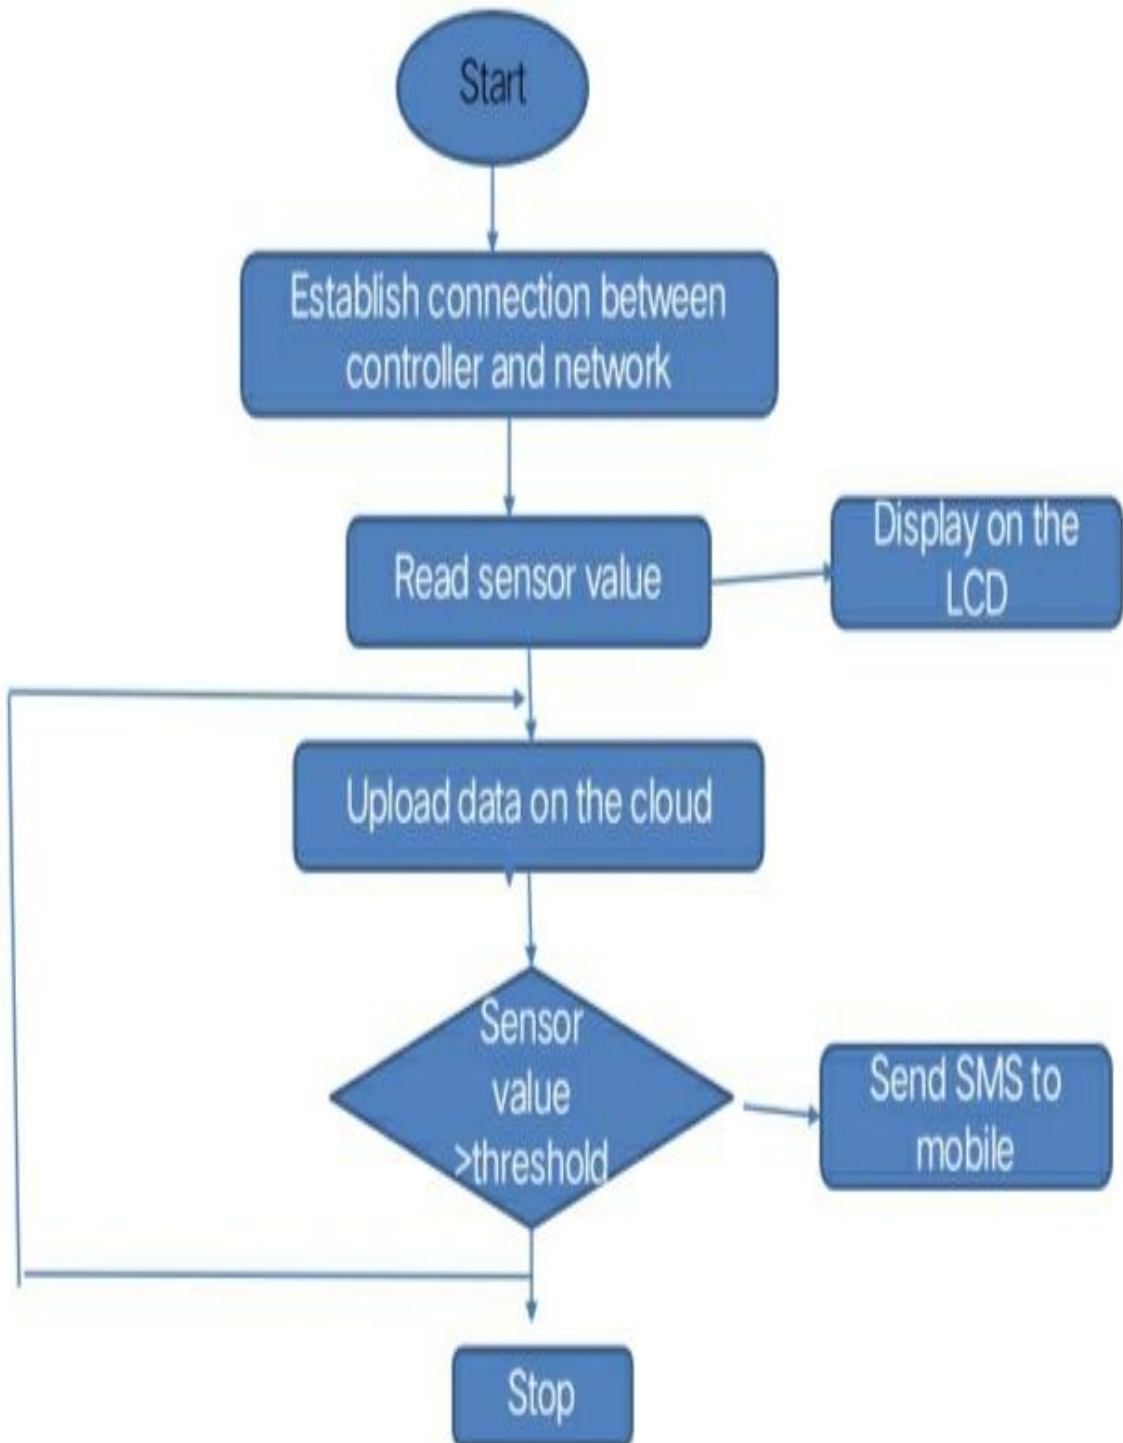

### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

1. The iot device is connected and a random value is generated from python code.
2. User Configures credentials for the Watson Natural language Understanding service and starts the app.
3. River water quality can be monitored by the web application.
4. Can be able to know if there are any dust particles present in the water.
5. The PH level of water can be monitored.
6. Water temperature can be monitored.
7. Alerting the authorities if the water quality is not good so that they can go and announce the localities not to drink that water.

## TO DETECT RIVER WATER QUALITY WITH THE HELP OF SENSORS

## User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail		Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password		High	Sprint-1
	Dashboard	USN-6	As a user, I can login into the dashboard and search the access account and receive mail.			
Customer (Web user)	Login	UI	As a user, I need to create an account by providing all the necessary information(Eg:name,password, mobile,email,address)		Medium	Sprint-1
Customer Care Executive	Registration	UX	As a customer, I need register for the care executive for the application	I can register and access the account	High	Sprint-1
Administrator	Confirmation		As a customer, confirmation mail once registered for the web user		High	Sprint-1
